

“INNOVATION IN
TECHNOLOGY
SMART IN
BUSINESS”

GREEN TOGETHER

At Greenweb, a knowledge-based holding company with over three decades of experience in the IT industry, as one of the most influential players in the digital economy and digital transformation in Iran, we have been able to support our customers by investing in the development of emerging technologies such as the Internet of Things, blockchain, cloud services, artificial intelligence infrastructure, and web hosting. We are also proud to be a technology export agent and supporter of knowledge-based companies, helping them enter international markets.
